

Pre-Operative Instructions

Drop off for surgery at all three of our clinic locations is at 7:30am. We do a group admit that takes about 20 minutes.

Dogs should remain in your car until after you have been checked in. Cat can be brought inside. All cats must come to the clinic in individual carriers. We have the cardboard carriers available for \$5 if you do not have a carrier.

Nothing for your pet to eat after midnight the night before surgery but they are able to have water.

IF YOUR PET IS UP TO DATE ON THEIR RABIES VACCINE, please be sure to bring the PAPERWORK with you. A rabies tag is not an acceptable form for proof of vaccination.

Pick up for dogs is the same day at 3pm. Cats will stay overnight and pick up the following morning at 7:30am.

If you have questions, you can call the clinic at 704-970-2711, or email info@standforanimals.org.
